# **ABSTRACT**

## **~~A METHOD FOR IMPROVING PERFORMANCES OF A MOBILE RADIOCOMMUNICATION SYSTEM USING A POWER CONTROL ALGORITHM~~**

A method for improving performances of a mobile radiocommunication system using a power control algorithm, said method essentially comprising:

- regularly estimating (20- 24, 27) if a criterion is met as to whether said power control algorithm should better be de-activated,
- de-activating (28) said power control algorithm if said criterion is met.
